

ASC REMANUFACTURED AIR STARTERS

Exchange Program

THE BENEFITS OF REMANUFACTURED

It has never been easier to buy exchange remanufactured air starters. ASC maintains the largest inventory of exchange air starters in the industry.

Available brands

- ASC
- TDI
- Ingersoll-Rand
- Caterpillar and more...

When you buy ASC Reman, you get the same quality, performance, reliability, and warranty at a fraction of the cost of the latest version of the unit. Our Exchange Program provides fast and reliable service during those urgent times when your engine is down.

EXCHANGE MADE EASY

Provide us your air starter part number and we can ship out your certified reman unit in advance of the receipt of your good core.

THE ASC REMAN DIFFERENCE

Most air starter remanufacturers merely clean used parts, then reassemble them. The ASC approach is vastly different and exceedingly comprehensive. At ASC, remanufacturing is not just rebuilding. It is much better. All ASC air starters are:

- Disassembled to their smallest parts
- Cleaned and polished to remove even microscopic debris
- Inspected for imperfections and cracks
- Wear parts must meet specific tolerance standards
- Assembled into like new with all engineering updates,
- In process and final testing to the same standards as new ASC, TDI or IR
- Backed by the ASC Warranty
- **MADE IN THE USA**
